1925

These are the Lowest Priced Good Trees
in the State, and lowest since 1913

FEBRUARY 1, 1924 (1925)

THIS PRICE LIST SUPERCEDES ALL OTHERS

TRIBBLE NURSERIES

TRIBBLE BROS., Proprietors

LODI, CALIFORNIA

Phone No. 58-F-12

P. O. Address, Lodi, Calif.

Location, Four Miles West of Lodi

WHOLESALE PRICES TO THE PLANTER

Our prices are not only lower than other Nurseries but are different. We give the small planter the benefit of the wholesale rate or the same price as the man that buys 1000 or more trees. The man that buys a thousand trees gets the thousand rate and so does the man that buys more than five trees of a variety, less than five trees we make a small extra charge for cutting bundles. A glance through our catalogue will convince you that it will pay you to buy your trees of us.

Press of A. N. Bullock, Sacramento, Cal.

OUR GUARANTEE OF QUALITY—We guarantee that our trees are as good as can be grown: Should they prove otherwise, they may be returned to us, in good condition, and we will refund full amount paid for trees and transportation charges. If you are planting a commercial orchard, it will pay you to visit our nurseries.

Refunding you several times the purchase price of trees that may prove not true to name does not recompense you for errors made or make you an orchard of the desired variety, as you have a right to expect your trees to bear for many years and you will still have a mixed orchard.

We guarantee our trees true to name and label and if for any reason they may prove otherwise, we will upon proof of such error send an expert to graft or bud all such trees that may prove untrue to name to the varieties ordered, this service is free of charge.

ORDER early that you may get varieties and grades preferred. Write only on one side of the paper.

SUBSTITUTION—We never make substitution on commercial orders, but in family orders we can often give a much better variety for home use than that which is ordered, and if out of the variety ordered will substitute as nearly as possible unless requested not to do so.

PACKING—We pack all plants and trees as nearly perfect as it is possible to do, for which we make a small charge to cover cost of material used.

HOW TO SHIP—Be sure to give route, whether by Express or Freight, and where there is no agent, be sure to allow enough to pay charges and we will refund any amount above the charges.

DELAY IN SHIPMENT—Our responsibility ceases when we deliver the trees to the Transportation Companies, the shipment being made at risk of purchaser. However, we will give every assistance in assisting our patrons in adjusting their claims with the Railroad and Express Companies.

ERRORS and SHORTAGE—Must be made within 5 days after receipt of the trees that we may rectify them immediately.

UNKNOWN CORRESPONDENTS—Must accompany their order by cash or satisfactory references.

C. O. D. ORDERS must be accompanied by enough cash to guarantee acceptance of the order.

REMITTANCE may be made in any manner to suit the buyer. Personal checks are acceptable.

PARCEL POST—We do not recommend shipment by Parcel Post except where delivery cannot be made in any other convenient manner. Orders to be shipped this way must be accompanied by enough to cover postage in full.

SPECIAL QUOTATIONS on large orders.

THIS is our twenty-fourth year in growing and selling trees and we ship all over the world where trees are planted.

New Introductions

PRICE, \$1.00 EACH

We offer the following list of new and promising fruits to our patrons with the distinct knowledge that they are the very best of their respective classes.

Our Tribble's Pride, Mother's, White Muir, Liberty, Tribble's Free and Tribble's Cling are among the finest flavored peaches in the world as well as the most beautiful peaches grown, these are all of our own origin and are offered to the public after years of trial in our own orchards.

New Freestone Peaches

MOTHER'S PEACH—This is one of our own originations and is one of the finest of all freestones, with Tribble's Pride are unlike any other variety and is exceeded in beauty of coloring only by the latter variety. Tree very large and wonderfully productive; fruit very sweet and of a most delicious flavor. Eagerly sought by local trade and fruit venders.

TRIBBLE'S PRIDE—This is one of our own originations; is a seedling of Mother's Peach; has all the good qualities of that variety; ripening earlier; very large, beautiful peach; round, very firm, very sweet and most deliciously flavored of all peaches. It's brilliant red coloring makes it easily discernible across an entire orchard of trees and has caused more favorable comment and attention than any peach known.

WHITE MUIR—This is a cross between the Muir and Mother's Peach; is a white fleshed Muir of excellent quality and flavor, very sweet and an excellent peach. Ripens about the same as Muir.

LIBERTY—This is a seedling of Tribble's Pride, is a large round freestone of good size and excellent quality, it's light creamy color covered with a deep red blush makes it a beautiful peach; it is sweet and of fine flavor. Good bearer, ripens Mid-summer.

TRIBBLE'S FREE—A seedling of Mother's Peach, is a large, round, white-fleshed freestone; its light colored skin covered with a rich red blush makes it an unusually attractive peach; it is very sweet and of a rich juicy flavor. Ripens July-August. Tree very large and good bearer.

NATIONAL (Burbank's).—A firm and delicious peach canned; very large, sweet and good. Sells well in any market. Similar to the Leader, but ripens two weeks earlier, July 15.

VAINQUER—Introduced from Granada, Spain. The earliest of all peaches to ripen. Good size, firm, sweet and by far the best quality of any early peaches. Skin creamy, covered with blush; white flesh. May 10.

NEW ZEALAND FREE—Tree very vigorous and productive; fruit large, round, skin greenish covered with red; flesh white; juicy, sweet and very rich. Ripens in September.

New Clingstone Peaches

CHINESE CLING—A seedling of the Fei; a very large light colored cling, with a red blush; bears well; flesh firm, sweet and of good flavor, an excellent home canning cling.

TRIBBLE'S CLING—This is a beautiful cling; Its deep red blush over a light colored skin makes it very attractive indeed; it is a fine grained peach of rich, sweet flavor, an excellent home peach and sells well owing to its attractive appearance. Ripens mid-summer.

NEW ZEALAND CLING—Fruit is very large and of excellent quality, skin orange-yellow with a rich red blush; flesh yellow and of excellent flavor. Bears well. Ripens in September, and is one of the best of all canning clings.

HONEY CLING—Honey peach, not listed by other nurseries. The sweetest of all peaches; medium size. August.

New Plums

TRIBBLE'S EARLY BEAUTY—This is a plum of the Beauty type, but larger and with a red blush. Ripens from two to three weeks before the Beauty, making it the earliest of all plums to ripen; good bearer and sells well. Owing to its reaching the market before any other plums. One of our own originations.

COMPOTE—While this is an old and favorably known variety of England, it is new to America. Its fruits are very attractive and of splendid quality and is one of the best cooking plums grown.

METHLEY—(Blood Plum)—We are proud to offer this new introduction from South Africa; deep red plum, heart shaped, very largest size, deliciously sweet, firm and very productive; will sell well; ripening the last of May.

Nectarines

NEW ZEALAND—This nectarine was introduced by the Department of Agriculture from New Zealand. Fruit is rather large, greenish color, covered with a red blush, good flavor and bears well.

QUETTA—Introduced from Quetta, British India. Largest of all nectarines; very heavy bearer; beautiful color, with rare rich flavor. Season August.

New Prunes

EMILEE PRUNE—An extremely large prune of the Sugar Prune type but deeper color and much larger; packing 4x4; very prolific and dries well. Freestone, yellow flesh and purple skin; sugar content very high. Ripens August 10.

OREGON SILVER—This is a very large type of the old Silver Prune and has all the good qualities of that variety, being very large, rich and very sugary, dries into a beautiful fruit.

STEWART PRUNE—This is a very large improved Imperial, with all the good qualities of that variety, being exceedingly sweet, quite large and dries well. Bears well and a good strong grower.

\$2000.00 PRUNE—This is an improved French prune that the owner refused the above amount for its control, very good bearer and an excellent prune.

IMPROVED FRENCH—This prune has been sold under different names by different firms and is one of the best of the improved varieties of the French Prune.

SUPER PRUNE—This is perhaps the largest and best of the improved French Prunes, being eagerly sought by growers of prunes throughout the entire Pacific Coast.

New Cherries

EARLY CHINESE—Pink in color, very productive, not subject to gum disease. Earliest of all cherries; ripens about three weeks earlier than E. P. Guigne or Chapman.

MINEKEN—A very large cherry ripening in July. Tree very large and prolific, fruit rather tart and of excellent quality; one of the best of all canning and preserving cherries.

EARLY RIVERS—This is an old English variety, but not much known in this country. Tree is very vigorous, upright-spreading, hardy and productive. Fruit large deep red changing to a gloosy black, flesh reddish, juicy very tender and sweet. Ripens very early.

GIANT BIGARREAU—This is a very large cherry of the Bigarreau type and one of the best of the Bigarreau cherries, fruit almost black, sweet, juicy rich flavor.

New Apricots

GRACE APRICOT—Tree very vigorous and bears well; fruit exceptionally large, freestone, and the most delicious of all apricots, and the most highly colored apricot grown, being nearly red in color, ripens a little later than Royal.

CASABA—A Chinese variety, the largest and earliest apricot, grown of exceptionally good flavor and quality.

New Pears

RUSSIAN—This pear was sent us from Russia with the understanding that it was the finest summer pear in that country and better than any of the standard varieties in this country. It has not yet fruited with us and we have only a limited number of trees for those that want to try it out here, it seems quite hardy and free from blight. 5 PT 33, 57

FAVORITA—From Granada, Spain. A large full-necked pear, greenish yellow color, covered with red, the flesh is very tender, melting, and juicy, bears well and ripens about the middle of August. With us this pear is much larger than the Bartlett and of much better appearance, having a rich red blush. It has caused more favorable comment than any pear in recent years.

Jujube, or Chinese Date

CHINESE DATE—This wonderful new fruit will be grown on every farm in the state when better known, it is much superior to the date, the tree is very hardy and free from insect pests and bears such heavy crops as to need attention, the fruit is good size and of excellent flavor and when dipped in hot syrup and dried are far superior to the date. Price of these Jujube trees, \$2.50 each.
